3 Chairman's Statement

Dear friends,

In 2025, we achieved a series of milestones, including the successful completion of our annual general meeting, the implementation of our strategic plan, and the achievement of our business goals. We have also made significant progress in our ESG management, and we are committed to continuing to improve our ESG performance in the future.

We are proud to have achieved these results, and we thank all our stakeholders for their support and cooperation. In the future, we will continue to focus on our core business, and we will also pay attention to our ESG management. We will continue to improve our ESG performance, and we will strive to create a sustainable future for our company and our stakeholders.

In the future, we will continue to focus on our core business, and we will also pay attention to our ESG management. We will continue to improve our ESG performance, and we will strive to create a sustainable future for our company and our stakeholders.

3 Chairman's Statement

The Group continued to achieve significant growth in 2025. We are committed to providing high-quality medical services and maintaining a strong focus on patient safety and satisfaction. Our financial performance remains robust, and we continue to invest in research and development to drive innovation in our medical products and services. We are also committed to environmental sustainability and social responsibility, ensuring that our operations are in line with global best practices and regulatory requirements.

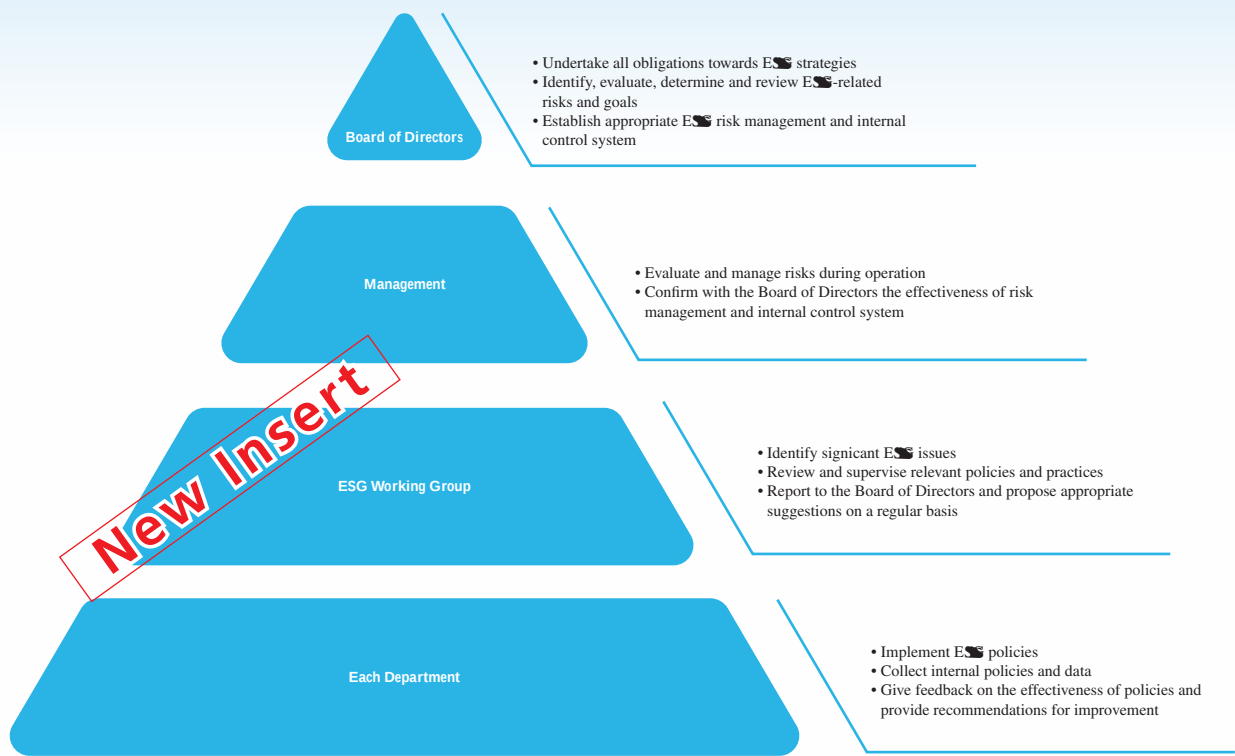

4 Sustainability Blueprint and Governance Practices

The Group adheres to the principle of "green development, shared growth", and actively promotes the construction of a green hospital. We have established a green management system, and implemented a series of measures to reduce carbon emissions, improve energy efficiency, and protect the environment. We have also established a green supply chain management system, and require our suppliers to meet the requirements of green development. We have also established a green culture, and encourage all employees to participate in green activities. We have also established a green communication system, and actively disclose our green performance to the public. We have also established a green management system, and implement a series of measures to reduce carbon emissions, improve energy efficiency, and protect the environment. We have also established a green supply chain management system, and require our suppliers to meet the requirements of green development. We have also established a green culture, and encourage all employees to participate in green activities. We have also established a green communication system, and actively disclose our green performance to the public.

4.1 Sustainable Development

We have established a green management system, and implement a series of measures to reduce carbon emissions, improve energy efficiency, and protect the environment. We have also established a green supply chain management system, and require our suppliers to meet the requirements of green development. We have also established a green culture, and encourage all employees to participate in green activities. We have also established a green communication system, and actively disclose our green performance to the public.

7. Promotion of Green Healthcare

Opportunity Type	Time Range	Potential Impact	Response Measures
Resource Efficiency Improvement	Medium-term	Improve resource efficiency and reduce costs	Reduce data center energy consumption, adopt green building standards, and improve office efficiency
Brand Reputation Enhancement	Medium-term	Build a green brand image and enhance corporate social responsibility	Implement green procurement, establish a green supply chain, and conduct green marketing activities, etc.

During the reporting period, the Company has achieved significant progress in promoting green healthcare. The Company has established a green healthcare management system, and the relevant departments have implemented a series of measures to improve resource efficiency and reduce costs. The Company has also established a green brand image and enhanced corporate social responsibility. The Company has implemented green procurement, established a green supply chain, and conducted green marketing activities, etc.

The Company has achieved significant progress in promoting green healthcare. The Company has established a green healthcare management system, and the relevant departments have implemented a series of measures to improve resource efficiency and reduce costs. The Company has also established a green brand image and enhanced corporate social responsibility. The Company has implemented green procurement, established a green supply chain, and conducted green marketing activities, etc.

Risk Management

We have identified the following risks related to green healthcare: (1) Lack of green healthcare management system; (2) Lack of green healthcare management personnel; (3) Lack of green healthcare management funds. We have taken the following measures to manage these risks: (1) Establish a green healthcare management system; (2) Establish a green healthcare management personnel; (3) Establish a green healthcare management funds.

Metrics and Targets

We have set the following metrics and targets for green healthcare: (1) Reduce energy consumption per unit of output by 10% in 2025; (2) Increase the proportion of green procurement to 30% in 2025; (3) Increase the proportion of green marketing to 20% in 2025. We have achieved the following results: (1) Reduced energy consumption per unit of output by 8% in 2024; (2) Increased the proportion of green procurement to 25% in 2024; (3) Increased the proportion of green marketing to 15% in 2024.

During the reporting period, the Company has achieved significant progress in promoting green healthcare. The Company has established a green healthcare management system, and the relevant departments have implemented a series of measures to improve resource efficiency and reduce costs. The Company has also established a green brand image and enhanced corporate social responsibility. The Company has implemented green procurement, established a green supply chain, and conducted green marketing activities, etc.

8. Community Engagement and Charitable Support

We understand the importance of community engagement and charitable support in achieving our mission. We are committed to building a strong relationship with the community and supporting the development of the region. We are also committed to supporting the development of the region through various initiatives, including community engagement and charitable support. We are committed to supporting the development of the region through various initiatives, including community engagement and charitable support.

Appendix I: Sustainability Data Statement

The following table presents the key performance indicators (KPI) for the Reporting Period, categorized by the three pillars of sustainability: Environmental, Social, and Governance. The data is presented for the Reporting Period, the preceding period, and the target for the Reporting Period. The data is presented for the Reporting Period, the preceding period, and the target for the Reporting Period. The data is presented for the Reporting Period, the preceding period, and the target for the Reporting Period.

	Unit	2025
Emissions⁸		
Net Emissions (NO _x)		555.90
Sulfur Dioxide (SO ₂)		0.86
Particulate Matter (PM)		51.14
Greenhouse gas emissions		
Direct Emissions (Scope 1)	tonnes of CO ₂ e	584.64
Indirect Emissions (Scope 2)	tonnes of CO ₂ e	11,085.99
Total Emissions (Scope 1 & 2)	tonnes of CO ₂ e	11,670.63
Greenhouse Gas Intensity ⁹	tonnes of CO ₂ e/tonne	0.25

Appendix I: Sustainability Data Statement

Below is the table of the data as of the Year:

	Unit	2025
Total number of employees	Unit	4,826
Number of employees by employee category		
Full-time employee	Unit	4,826
Number of employees by gender		
Female employee	Unit	2,869
Male employee	Unit	1,957
Number of employees by employee rank		
High-level employee	Unit	4,059
Mid-level employee	Unit	746
Senior employee	Unit	21
Number of employees by age group		
Employee aged under 30	Unit	1,914
Employee aged between 30 and 50	Unit	1,963
Employee aged above 50	Unit	949
Number of employees by geographical region		
Employee in Ningbo	Unit	37
Employee in Ningbo area	Unit	115
Employee in Eastern China	Unit	4,368
Employee in Central China	Unit	127
Employee in Northern China	Unit	3
Employee in Southern China	Unit	176

Appendix I: Sustainability Data Statement

	Unit	2025
Total employee turnover rate ¹⁰	%	17.11
Employee turnover rate by gender		
Female employee	%	17.44
Male employee	%	16.62
Employee turnover rate by age group		
Employee aged under 30	%	17.57
Employee aged between 30 and 50	%	11.38
Employee aged above 50	%	26.15
Employee turnover rate by geographical region		
Employee from Ningbo City	%	41.27
Employee from Ningbo City area	%	14.18
Employee from Eastern City	%	16.40
Employee from Central City	%	19.11
Employee from Ningbo City area	%	25.00
Employee from Suzhou City	%	26.36

¹⁰ Employee turnover rate is calculated based on the number of employees who have left the company during the reporting period divided by the average number of employees at the end of the year.
